Thursday, June 28, 2018  
10:00am to 2:00pm

Ride through the historic Downtown area pointing out sites with historic significance

Ride through the historic Downtown area pointing out sites with historic significance

Stop in North Richmond to discuss North Richmond history and its role in developing the Environmental Justice movement in Richmond

Stop at Urban Tilth's North Richmond Farm to discuss food security and urban agriculture issues

Visit the Wildcat Marsh and Loop Trail Park where we see that combination of a solar powered waste water treatment plant, Garbage Mountain the closed Richmond land fill, creek and wetlands restoration, the Chevron Refinery

Go to Pt Molate and the Pt. Molate Beach Park. Along the way we will pass Chevron's Solar One Project, the largest solar generation project in the Bay Area, the gates of Chevron where demonstrations occur, Pt. Molate and the battle against a casino and the current development battle, including viewing Winehaven. We can lunch at the park

Travel to see the activities at the Port of Richmond, including the Levin Terminal coal and pet coke shipping facility and Sims Metals, the sight of a recent significant industrial fire, then we will stop near the Richmond Craneway to discuss current development issues, including the

Travel to the Richmond Greenway where will view the transformation of a railroad right-of-way into a bicycle and walking path with community gardens and orchards and murals. Debrief of the tour and the return to the office
